

Eleganza Smart Junior

Pediatric hospital bed

Eleganza Smart Junior – comfort for small patients

- POSITIONING USING ACTUATORS
- MODERN COLUMN CONSTRUCTION
- ERGONOMICALLY ADAPTED TO A CHILD'S BODY

The Eleganza Smart Junior bed was developed for pediatric patients aged 4–15, the bed dimensions are adapted to the ergonomics of a child's body. The Eleganza Smart Junior has all the functions of a modern hospital bed.

HIGH FUNCTIONALITY

- The bed is fully electrically adjustable. The actuators can adjust the position of the 4-section mattress platform made of metal segments and of the bed height.
- Auto-regression of the backrest enables the enlargement of the pelvic area by 11 cm.
- The backup battery with an intelligent charger ensures the bed's safe operation.

SAFE CONTROL

- Unique GO safety concept prevents accidental bed positioning.
- The Supervisor panel is equipped with pre-programmed functions.
- The hand control is designed for the patient and nurse.
- The backrest is equipped with a CPR unblocking function.

- The unique column construction provides the bed with exceptional stability.

- The siderails have smaller gaps between the rails in comparison with standard beds and do not create gaps at the bed's head-end.

- The bed is supplied with collapsible single-section coated siderails.

- The auto-regression of the backrest by 11 cm significantly reduces pressure on the pelvic area.

- The backrest can be easily mechanically adjusted to the CPR position.

- The Supervisor panel can lock the bed's functions and is equipped with pre-programmed functions.

- The hand control can adjust the position of bed's mattress platform and height.

- The GO concept prevents accidental positioning. The controls are activated for a period of 3 minutes with the aid of the GO button.

OTHER AND OPTIONAL EQUIPMENT

- 150 mm Tente Standard Concept castors with a central braking system
- 60 mm protective corner bumpers
- Plug&Play adapter
- Accessory rails
- 2 holders for IV pole or lifting pole
- Removable plastic bed-ends
- Other variants of accessories

TECHNICAL PARAMETERS

External dimensions	92,5×183,5 cm
Mattress platform	80×170 cm
Mattress platform height adjustment	38,5–76,5 cm
Backrest tilt	70°
Thighest tilt	45°
Backrest auto-regression	11 cm
TR/ATR tilt	16°/16°
Safe working load	180 kg
Weight (depending on the equipment)	120 kg
